

SANITARY MEASURES

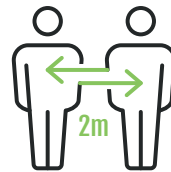

Because our top priority is the safety of our clientele and our team, you can rest assured that we're taking all of the necessary sanitary measures.

HOW TO PREPARE FOR YOUR APPOINTMENT

Arrival time

We ask that you show up for your appointment at the scheduled time. Otherwise, you will be asked to wait in the parking lot in order to prevent crowding in the waiting room.

Social distancing

We ask that you observe the recommended social distancing of two meters from other clients and our reception personnel.

No companions allowed

You must come alone to your appointment. No one may accompany you unless absolutely necessary.

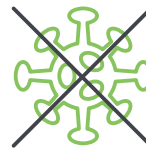

Disinfection

We disinfect all chairs and equipment between each use. We have scheduled additional staff to ensure optimal sanitation of the premises and equipment.

Masks

We require you to wear a mask at all times while at the clinic, only removing it once the dentist or dental hygienist asks you to.

Air filtering

All of our rooms are equipped with high-efficiency (10 air changes per hour) HEPA filtration systems to eliminate any suspended particles in the air.

Hand washing

Once you enter the clinic, you will be asked to wash your hands

Payment methods

We accept payments by credit or debit card only.

If you have any questions, you can reach us at (450) 455-5673.
